**Profile:** I am a skilled Full-Stack Web Creator who has extensive training in both Web Development and Computer Engineering with the ability to Develop and Test Web Applications and Software. I love experimenting with code to see the art of the possible. I enjoy designing products that deliver and outperform user expectations, while solving problems they didn't know they had.

## Education:

### Light House Labs - Web-Development Training

Diploma 2021/07 - 2021/10

*Bootcamp extending between 3 months that taught me the fundamentals of web development including but not limited to Javascript, Rails and React.*

### Sheridan College - Computer Engineering Tech

Advanced Diploma 2014/09 - 2019/11

*A rewarding four year experience where I learned the fundamentals of analogue / digital devices, as well programming and software development cycle.*

Front-End Skills	Back-End Skills
JavaScript/TypeScript	Ruby On Rails
NPM/Webpack/Babel	Active Record
Ruby/Swift	Node.JS
React/React Native	Express.JS
JQuery	PostgreSQL / RDBMS
EJS template/Rails ERB	MySQL
HTML/CSS/JSX	Linux CLI
AJAX	Java
Axios/Fetch	Git / GitHub
DOM Manipulation	RESTful Services / APIs
JSON	Python
Cypress/Mocha/Chai	MongoDB
Debugging/Testing	Embedded C/C++

## Projects Developed:

Projects	Technologies
<u>Hood Watch:</u> A social media app that keeps tracks of events and reports in a users community.	JavaScript, Express, React, PostgreSQL, Node.js, Axios, Map-Box API
<u>Scheduler:</u> A react-app interview scheduler that allows a user to create an appointment at a designated time slot.	Node.js ,React, Axios, Express, Cypress, JEST, SQL, JavaScript, JSX, CSS, HTML
<u>Jungle:</u> An application developed in rails 4.2 that simulates an e-commerce website. This website was not built from the ground up but was tasked with fixing bugs and adding new features like shopping cart checkout and stripe payment.	Ruby, Ruby On Rails, RSpec, Capybara, PostgreSQL, Bcrypt, Stripe, MVC, Active Record, ERB, HTML, CSS, rails-sass
<u>Tweeter:</u> An Express/JQuery application that simulates the twitter experience; allowing users to create tweets.	JavaScript, Express.JS, JQuery, AJAX, HTML, CSS, Node.JS

## Experience:

### BestBuy - Forklift Operator / Team Coordinator

Mostly Part-Time 2019/04 - 2020/02

*Responsible with coordinating the team to pick and process items and prepare them for shipping; as well as training some workers new to the team.*

### FreshCo. - Labourer and Team Member /Night

Mostly Part-Time 2017/09 - 2019/02

*Worked with a team of labourers that cleaned the entire store and worked together to face the aisles.*
